EDUCATIONAL BACKGROUND

HyperionDev FullStack Web Developer Bootcamp

- August 2020

Full Stack Web Development to build database-driven web apps using the powerful MERN stack.

Cape Peninsula University Of Technology National diploma / Computer Systems Engineering

- March 2016 to November 2019

Focuses on designing, implementing, installing and maintaining computer hardware, software and networks.

- C and Java Programming
- CISCO IT Essential and CCNA Routing and Switching
- MySQL Database: design, implement and maintain relational database
- Digital Systems: System design and programming using micro-controllers to perform some tasks (UNO Arduino)
- Electrical and Electronic engineering: designing, building and troubleshooting electrical circuits

WORK EXPERIENCE

Aerobotics Quality Control Specialist

FROM FEBRUARY 2019 TO PRESENT
ROLES AND RESPONSIBILITIES:

- Data Team Leader, I was managing a team of 50 Data validators and made sure that the job requirements and standards are met.
- Data QC Specialist, Data Processing and Visualisation
- Research and creativity, from new concepts to a great product experience.
- Product and Innovation, provide ideas and concepts for new features to the product team.
- Data labelling: I spend most of my time analysing data generated by our AI, checking whether the model outputs if they are correct to complete the job, else provide context to improve the output accuracy

Aeroview Mobile APP

- Maintaining and adding features to hybrid (Android/IOS) mobile application that provides access to farm and orchard satellite maps with relevant marker and polygon data.

Technologies:

- Typescript
- React Native
- Redux
